trialfolk
Clinical trial recruitment

People make research possible.

Personal recruitment support for studies involving adults ages 65 to 80. Starting in St. Louis.

No minimum. No retainer.
Pay per agreed enrolled participant. Fees are quoted privately.

A defined pilot, before recruitment begins

We agree the study population, locations, timeline, target, responsibilities, budget limits, and stopping conditions. The agreement defines the billable enrollment milestone, site confirmation, attribution, and duplicate handling.

01 **Share a nonconfidential outline**
Protocol status, eligibility criteria, geography, enrollment target, and timing.

02 **Agree scope and a private quote**
We reply within one business day, Monday-Friday, Central time. A complete quote follows adequate scoping.

03 **Approve materials and start outreach**
Study-specific recruitment materials receive the required review before use.

04 **Receive referrals and written updates**
Weekly during agreed active recruitment: activity, site-confirmed outcomes, delays, and next actions.

The study team confirms final eligibility and obtains research consent.
Trialfolk is a recruitment service. We do not provide medical care, medical advice, or study consent. No specific study is offered on our interest-list website today.
